

## EU Declaration of Conformity

**Issued under regulation reference:** (EU) 2025/40 (PPWR) into place: 12-08-2026

**Product Identification:** 10,20,30L Keykegs and the 20 & 30L Unikegs.

### PFAS Definition (As defined in Article 3)

Under the PPWR, *Per- and Polyfluoroalkyl Substances (PFAS)* are defined as any substance that contains at least one fully fluorinated methyl (-CF<sub>3</sub>) or methylene (-CF<sub>2</sub>-) carbon atom, with limited specified exceptions. This definition covers:

- \*- Polymeric and non-polymeric PFAS
- \*- Non-intentionally added PFAS (NI-PFAS)
- \*- PFAS present as impurities, processing residues, or breakdown products

### Declaration of PFAS PPWR Compliance for food contact materials.

We, OneCircle, hereby declare that all the food contact materials in the KeyKeg and Unikeg are produced without the intentional use of any Per- and Polyfluoroalkyl Substances (PFAS), including Non-Intentionally Added PFAS (NI-PFAS). Our food contact materials used during manufacturing are selected and controlled to ensure no PFAS are added at any stage of production.

### OneCircle confirms that testing and reporting demonstrates compliance with below thresholds in accordance with the PPWR.

- \*- ≤ 25 ppb for any individual non-polymeric PFAS (targeted analysis)
- \*- ≤ 250 ppb for total non-polymeric PFAS (sum, targeted analysis)
- \*- ≤ 50 ppm for *all* PFAS including polymeric PFAS (total fluorine-based)

### This declaration is issued based on:

- \*- Analytical testing on our materials.
- \*- Declarations and supporting documents from our suppliers.
- \*- Technical Product information
- \*- Material safety data and traceability documentation.
- \*- That our production process do not involve any PFAS.
- \*- Alignment with PPWR provisions covering the full packaging life cycle, including hazardous substance reduction requirements.

OneCircle acknowledges the increasing environmental and public-health concerns connected with PFAS and their persistence in the environment. OneCircle embraces the objectives of the PPWR to reduce hazardous substances in packaging, promote circularity, and safeguard human health and protect the environment. This statement applies to all our products placed on the market and is issued under the sole responsibility of the manufacturer.

### Disclaimer

This statement reflects OneCircle's verified information at the time of issuance and is intended solely for regulatory compliance. It may be revised in line with evolving legislation or technical developments.
